MAHIN ABRAR

Software Engineer | Python · Frappe / ERPNext · Backend & Automation
Dhaka, Bangladesh | +880 1775 491059 | mahinabrar25@gmail.com | LinkedIn | GitHub | Portfolio

PROFILE SUMMARY

Software Engineer with 3+ years building and deploying ERPNext / Frappe systems for clients in LPG distribution, healthcare, food, manufacturing, travel and recruitment. Works across backend logic, REST APIs, integrations and Linux deployment, and has contributed a fix to Frappe core.

TECHNICAL SKILLS

- **Languages & Frameworks:** Python, JavaScript, SQL, Django, Frappe, ERPNext / HRMS, Vue.js
- **Frappe:** Custom apps, DocTypes, hooks, scheduler jobs, workflows, whitelisted APIs, print formats
- **Databases & Caching:** MariaDB, PostgreSQL, SQLite, Redis
- **Infrastructure & Testing:** Ubuntu, Nginx, Git, GitHub Actions CI/CD, Bench, Locust, Postman
- **APIs & Integration:** REST API design, token auth, SAP B1, banking APIs, mobile app backends

EXPERIENCE

Software Engineer — Fusion Infotech Ltd September 2023 – Present

- **Payroll & overtime engine:** Lead developer of the company HR app, automating overtime, attendance rules and payroll posting.
- **Multi-level approval engine:** Built a reusable, template-driven approval workflow used across HR and purchasing for multiple clients.
- **Client support platform:** Built the company's ticketing and project system with a customer portal, response-time tracking and dashboards.
- **APIs & integrations:** Built REST APIs for the company mobile app and integrated ERPNext with SAP B1 and Jamuna Bank transaction APIs.
- **Client solutions:** Delivered custom HR, payroll, CRM, selling and buying modules for LPG, healthcare, food and trade clients, and built an overseas recruitment app from scratch.
- **Performance & delivery:** Added Redis caching, set up GitHub Actions CI/CD and deployed on Ubuntu / Nginx; worked directly with clients from requirements to production.

OPEN SOURCE

- **Frappe core:** Reported a duplicate-email bug; fix merged and backported to v14/v15. Issue · PR
- **Frappe UI apps:** Contributor to Enhanced Child Table; author of Customised Listview. GitHub

PROJECTS

playS — Tap-to-Launch — *Python, audio signal processing* GitHub

- Launches apps by tapping the laptop body, detecting the tap and its side from stereo-mic audio using only Python's standard library.

ERPNext Load Testing Suite — *Python, Locust, Frappe* GitHub

- Locust suite that seeds realistic ERPNext data and load-tests up to 100 concurrent users, with HTML/CSV reports.

DaysGone — *Django, Redis, HTMX, PWA* GitHub

- Self-hosted habit, expense and planning tracker with Redis caching, streaks and charts.

EDUCATION

BSc in Computer Science and Engineering — Anna University (CGPA 8.40 / 10) 2019 – 2023
